WELDING SERVICES IN SINGAPORE

Precision • Quality • Reliable Fabrication

INTRODUCTION

Your trusted contractor in Singapore for industrial pipe fabrication, installation, and welding works for commercial, marine, and industrial applications.

- Precision Fabrication
- Quality Welding
- Reliable Performance

ABOUT US

We are a Singapore-based engineering contractor specializing in pipe fitting and welding works. Our experienced team provides complete solutions for fabrication, installation, modification, and maintenance of piping systems using carbon steel, stainless steel, galvanized steel, copper, and HDPE materials.

WHY CHOOSE US?

- Skilled and certified welders
- Experienced pipe fitters and supervisors
- High-quality workmanship
- Compliance with project specifications
- Competitive pricing
- Timely delivery
- Strict quality control and safety standards
- Responsive project support

OUR SERVICES

Pipe Fabrication & Installation

- ✔️ Process piping fabrication
- ✔️ Utility piping installation
- ✔️ Chilled water and condenser water piping
- ✔️ Fire protection piping
- ✔️ Compressed air piping
- ✔️ Steam and condensate piping
- ✔️ Water supply and drainage piping

Pipe Fitting Works

- ✔️ Pipe cutting, threading, and grooving
- ✔️ Flange installation
- ✔️ Valve and strainer installation
- ✔️ Pipe supports and hangers
- ✔️ Expansion joints and flexible connections

Welding Services

- ✔️ TIG welding
- ✔️ MIG welding
- ✔️ Arc (SMAW) welding
- ✔️ Stainless steel welding
- ✔️ Carbon steel welding
- ✔️ Aluminium welding

Stainless Steel Works

- ✔️ SS304 and SS316 pipe fabrication
- ✔️ Hygienic and food-grade piping
- ✔️ Polishing and passivation

Repair & Modification Works

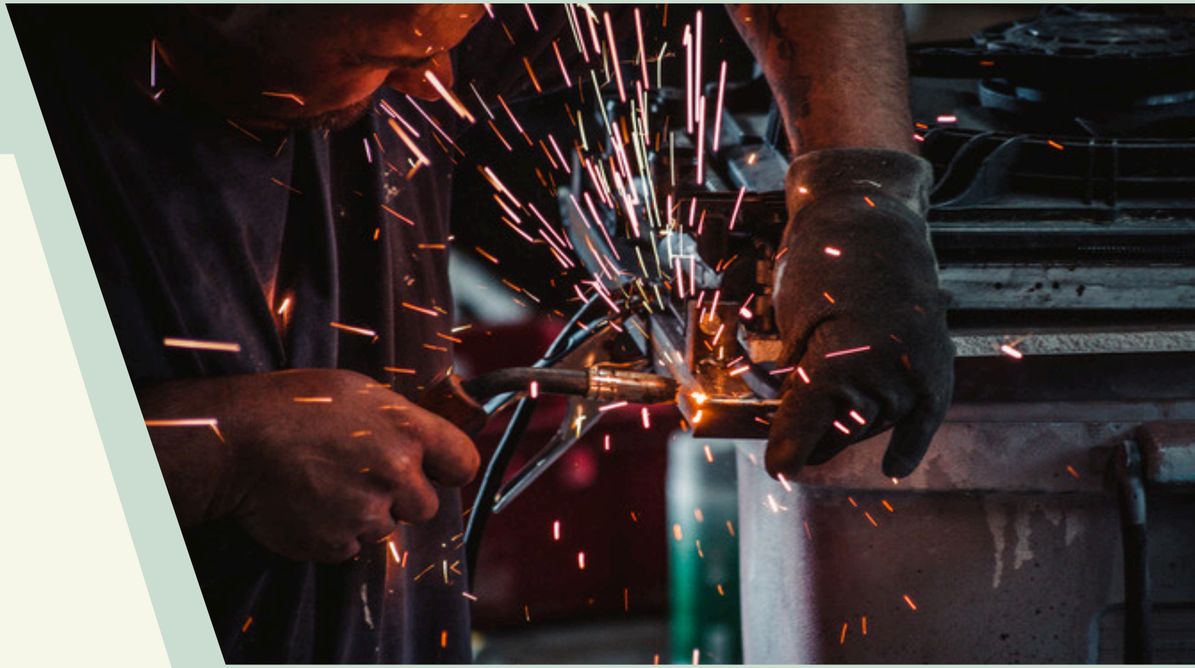

- ✔️ Leak rectification
- ✔️ Pipe replacement
- ✔️ Rerouting and alteration
- ✔️ Shutdown maintenance works

Testing & Commissioning

- ✔️ Hydrostatic pressure testing
- ✔️ Pneumatic testing
- ✔️ Flushing and cleaning
- ✔️ Final inspection and documentation

MATERIALS WE WORK WITH

- Carbon Steel (CS)
- Stainless Steel 304 / 316 / 316L
- Galvanized Steel (GI)
- Copper
- uPVC / CPVC
- HDPE
- Ductile Iron (DI)

INDUSTRIES WE SERVE

- Factories and Industrial Plants
- Pharmaceutical Facilities
- Oil & Gas Facilities
- Commercial Buildings
- Marine and Offshore
- Data Centers
- Food & Beverage Plants
- Warehouses

SPECIALIZED SERVICES

- Isometric drawing interpretation
- Spool fabrication
- Pipe support fabrication
- Equipment connection
- Shutdown and turnaround support
- On-site welding and fabrication

SAFETY & QUALITY ASSURANCE

Quality Assurance

All fabrication and welding are performed in accordance with project specifications and approved procedures.

Safety Compliance

Our team follows strict workplace safety standards and permit-to-work requirements.

Skilled Workforce

Projects are completed according to agreed schedules and specifications.

OUR WORK PROCESS

- Site inspection and drawing review
- Material procurement
- Fabrication and fit-up
- Welding and inspection
- Installation and testing
- Commissioning and handover
